

The graph displays a central hub-and-spoke model with 'concept_company_adobe' at the center. It is surrounded by a dense web of other concepts, including 'concept_personasia_variety', 'concept_writer_peter_bart', and 'concept_personaustralia_david_nagel'. The nodes are color-coded: orange for the central node, red for a prominent peripheral node, yellow for another prominent node, and grey for the majority of the other concepts. The edges represent the relationships between these concepts, forming a complex network structure.

[illegible]
