

The graph illustrates a complex network of relationships between various concepts. The nodes are represented by colored circles, and the edges are lines of varying thickness and color (orange, grey, red). The central node is 'concept_bank_usps'. Other prominent nodes include 'concept_bank_ups_ground_shipping' (yellow), 'concept_bank_usps' (orange), and 'pt_race_ups_shipping' (orange). The graph is densely connected, with many nodes having multiple incoming and outgoing edges.
