

The graph shows a central node, 'concept_country_france_france', which is connected to six other nodes. The nodes are labeled as follows:

- concept_person_st
- concept_city
- concept_person_louis_xvi
- concept_athlete_luis
- concept_person_georges
- concept_zacarias_moussaoui

The edges connecting the central node to the peripheral nodes are colored red or yellow, indicating different types of relationships or weights.
