

The graph illustrates a network of concepts. The nodes are labeled as follows:

- concept_organization_the_country
- concept_nongovernmental_organization_legislature
- concept_politicianus_bill
- concept_politicianus_legislation
- concept_company_funds
- concept_personmexico_ryan_whitney
- concept_governmentorganization_house
- concept_governmentorganization_representatives
- tradeunion_congress
- t_automobilemaker_money
- concept_transportation

The connections between the nodes are represented by lines of different colors, indicating different types or strengths of relationships. The nodes are colored yellow, orange, and red, possibly representing different categories or states within the network.
