

[illegible]

The graph displays a complex network of relationships between NFL-related concepts. The nodes are labeled with text and colored as follows:

- Yellow nodes:**
 - concept_sportsteam_buffalo_bills
 - concept_sportsteam_new_york_giants
 - concept_sportsteam_new_york_jets
 - concept_sportsteam_bears_29_17
 - concept_sportsteam_redskins
 - concept_sportsteam_colts
 - concept_sportsteam_ravens
- Orange nodes:**
 - concept_sportsteam_kansas_city_chiefs
 - concept_sportsteam_dallas_cowboys
 - concept_sportsteam_pittsburgh_pirates
 - concept_sportsteam_oakland_raiders
 - concept_sportsteam_seattle_seahawks
- Red nodes:**
 - concept_sportsteam_pittsburgh_pirates
- Grey nodes:**
 - concept_awardtrophytournament_super_bowl_xlii
 - concept_awardtrophytournament_super_bowl
 - concept_sportsleague_nfl
- Other nodes:**
 - h_maurice_jones_drew

The connections between nodes are represented by lines of varying thickness and color, indicating the strength or type of relationship. Thicker lines generally represent stronger or more direct relationships, while thinner lines represent weaker or more indirect ones. The colors of the lines (yellow, orange, red) likely correspond to the categories of the nodes they connect.
